**Statement relating to fire in Camden Lock Market**

10 July 2017. Market Tech has today issued the following statement relating to the fire in Camden Lock Market:

An isolated fire broke out in a building adjacent to the market hall area of Camden Lock Market overnight which was brought quickly under control by the Emergency Services and we are now working closely with them to investigate the cause. Thankfully no one was injured during the incident. While a small section of Camden Lock market will be closed off to the public until further notice as a precaution, the rest of Camden Lock market and the wider area, including Stables Market and Union Street, will be fully open and operating and welcoming visitors and customers as usual today.
